English-based Degrees 2025  
for Undergraduate Students

# WHY HOSEI?

## More Than 140 Years of History

-Immerse yourself in great education with a traditional University established in 1880

## Wide Range of Academic Fields

-Study and engage in various academic disciplines at 15 faculties and 38 departments certified by the Japanese government

## Globalized University

-Access the world and gain a deeper understanding of Japan at a Top Global University selected by the Japanese government

\*The Top Global University Project is a government-initiated project which provides prioritized support and funding for 37 selected universities in Japan

## INDEX

- P3 HOSEI by the NUMBERS
- P4 English-based Degrees

Clubs: More than

**200**

Graduates:

**500,000**

(2023)

Partner universities:

**269**

universities in 48 countries and regions  
(as of January, 2024)

\*The Top Global University Project is a government-initiated project which provides prioritized support and funding for 37 selected universities in Japan.

# English-based Degrees (for Undergraduate Students)

Introductory Videos of  
Hosei's English-based Degrees ▶

1.

### All classes taught in English

Courses for English-based Degrees are conducted entirely in English, so students who do not have Japanese proficiency are able to get a degree in Japan.

2.

### Japanese language classes

Students have opportunities to study the Japanese language. Even if students cannot speak Japanese when they enroll, they will be able to obtain a minimum level of Japanese proficiency and enrich their life in Japan. (Japanese language study is optional for GIS students.)

3.

### Small class sizes

A small group learning environment enables students to have opportunities to participate in classes actively, and facilitates a deeper learning and a smooth acquisition of academic skills.

## 1 Faculty (GIS) and 3 Programs (GBP, SCOPE, and IGESS)

pp.5-6

# GIS

### Faculty of Global and Interdisciplinary Studies

**Areas of study** Liberal arts education in Humanities, Social Sciences, and Management Sciences  
As a faculty, GIS offers over 200 different courses from more than 30 disciplines.

**Admission** April & September

**Number of places to be offered** 10 in fall, 90 in spring

**Campus** Ichigaya Campus

pp.7-8

# GBP

### Global Business Program

**Areas of study** Business Administration (Business, Strategic Management, Marketing, Finance, Accounting)

**Admission** September

**Number of places to be offered**  
Period I (Visa-based Admission) : 10\*  
Period II (General Admission) : 10

**Campus** Ichigaya Campus

pp.9-10

# SCOPE

### Sustainability Co-creation Programme

**Areas of study** Sustainability Studies (Sustainability, Environmental Policy, Energy and Resources, Social Development)

**Admission** September

**Number of places to be offered**  
Period I (Visa-based Admission) : 10\*  
Period II (General Admission) : 10

**Campus** Ichigaya Campus

pp.11-12

# IGESS

### Institute for Global Economics and Social Sciences

**Areas of study** Economics (Economics, Japan and the Global Economy, Area Studies, Business Communication)

**Admission** September

**Number of places to be offered** 30

**Campus** Ichigaya Campus and Tama Campus

\* The admission period I for both GBP and SCOPE applies to non-Japanese applicants who expect a "College Student" ("留学") status of residence on their visa to study at HOSEI.

## Faculty Highlights

### Liberal Arts

1.

A liberal arts education lays the foundation for intellectual pursuits and creates a framework for students to both contribute to and thrive in society. GIS offers opportunities for students to gain a deep and wide knowledge of various disciplines, including (but not limited to) the humanities, social sciences, and management sciences. With this base, students also have the opportunity to focus on a certain area of interest, developing refined but flexible and innovative thinking.

### Interdisciplinary Studies

2.

An interdisciplinary education at GIS moves between and beyond traditional academic fields. It liberates students from the narrow perspective of any single discipline in understanding complex issues in the world today. Students also learn how to adopt and synthesize new ideas, while gaining skills in critical thinking and problem solving within a supportive department setting.

### A Global Perspective

3.

Recognizing the variety of social and political challenges confronting contemporary society, GIS seeks to develop a truly global perspective to analyze and engage with the diverse experiences of an interdependent world. Whether choosing a career path abroad or within the increasingly internationalized environment of Japan, students leave GIS as independently-minded graduates with an understanding of and sensitivity to cultures not their own.

## What GIS Offers

### We Provide

#### Liberal Arts Program

- Our enhanced liberal arts-based curriculum now offers over 200 courses across 30 disciplines
- Our extensive range of content courses provides both local and global perspectives
- Specialist seminars allow students to gain extensive, in-depth knowledge

#### Engaging/Diverse Learning Environment

- English is the department's lingua franca: GIS provides 100% of its content courses in English
- Students gain a deeper and more memorable learning experience through our interactive learning approach
- Students play a more active role through our low teacher-to-student ratio
- Benefit from professors, academic support staff and other students, drawn from a variety of cultural backgrounds
- Interact globally through study abroad, overseas volunteer work and internship opportunities
- Build valuable relationships through alumni networking, GGLI and GSAS
- Enjoy the support and guidance of dedicated academic advisers

### You Develop

#### Skills

- Leadership
- Critical thinking
- Intercultural understanding
- English communication
- Presenting
- Problem solving
- Teamwork
- Discussion

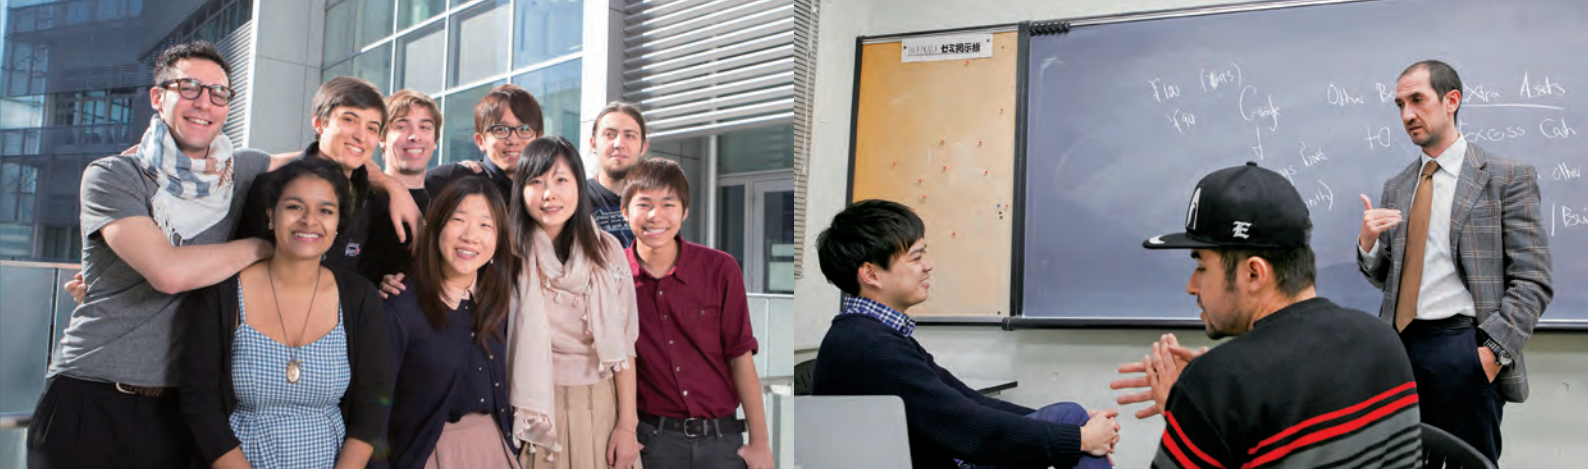

#### Knowledge & Cultural Awareness

- Gain foundational academic learning
- Consider problems from interdisciplinary perspectives
- Encounter real world issues and solutions
- Develop an awareness of social responsibility
- Experience diversity and inclusion

### Your Goal

#### Global Career Paths

- Postgraduate study
- Corporations (Japanese & overseas-affiliated)
- Start-ups
- Public sector organizations
- NGOs & NPOs

## Curriculum & Course List

### GIS Liberal Arts Program

#### Foundation Courses

Laying the groundwork for education and employment: students acquire the fundamental skills essential for success in GIS and in their future careers through our academic skills courses, e.g. Academic Writing, Debate & Discussion and Presentation & Public Speaking.

Humanities	Social Sciences	Management Sciences
<b>100 level</b> Build basic knowledge in core disciplines	<b>INTERDISCIPLINARY STUDIES</b> <b>200 + courses across 30 disciplines</b> Anthropology, Business Management, Cultural Studies, Development Studies, Economics, Education, Environmental Studies, Gender and Sexuality Studies, Geography, History, Information Studies, International Relations, Legal Studies, Linguistics, Literature, Media Studies, Migration Studies, Performing Arts, Philosophy, Politics, Psychology, Race and Ethnic Studies, Religious Studies, Research Methodology, Science and Technology Studies, Sociology, Statistics, Tourism Studies, Translation, Visual Arts	<b>Value-Added Options</b> Global Open Courses Internship and International Volunteer Programs Overseas Study: OAS, OSEP, Accreditation
<b>200 level</b> Cultivate an interdisciplinary perspective by applying knowledge gained in a number of fields

**400 level** Develop specialized knowledge by applying an interdisciplinary approach to a seminar's field of study

Literature	Education	Psychology	Brand Management	Entrepreneurship
Sociolinguistics	Media Studies	Sociology	International Relations	Tourism

### Comment from the Dean

GIS is an educational institution that cultivates future leaders of business and society who have acquired a global standard through diverse environments, small-class environment, and liberal arts education. GIS helps students achieve their full potential, including developing their ability to understand and act based on different cultures and values. In addition, through small-class education, students can have a closer relationship with their professors and can acquire skills necessary for the future, such as critical thinking and problem-solving abilities, as well as a wide range of academic knowledge. Furthermore, since graduates are active on the world stage, they can also expand their global networks.

In April 2023, GIS launched two student support programs, GGLI and GSAS. GGLI is a collaboration between academia and the business world that supports those who aspire to work for Japanese global companies or foreign companies, or who want to become entrepreneurs through connections with people active in the business world. GSAS is a program that supports students who wish to go to graduate school overseas. While individual professors have been supporting students who wish to study abroad in the past, the program has been specifically designed to respond to the increasing number of students who wish to study abroad in recent years.

Why don't you join us and build a promising future?

**Takamasa FUKUOKA**  
Dean of GIS

# GBP

Global Business Program

## Areas of Study

Business, Strategic management, Marketing  
Finance, Accounting

## Find out more

Web ▶ <https://gbp.hosei.ac.jp/>

## Program Highlights

---

1.

### Third-oldest business school among Japanese universities

Since its foundation in 1959, the Faculty's education and research studies have nurtured many graduates whose competency has been proven in the real business world. With our accumulated values built on a long history and tradition, combined with the school's motto "Practical Wisdom for Freedom", we continue to challenge new issues.

2.

### Obtain in-depth knowledge of Japanese-style business management

Japanese companies have been able to maintain their competitiveness in the global business environment with outstanding craftsmanship and top-quality services. In addition to the large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services are also successfully expanding their presence globally, particularly in Asian markets.

3.

### Curriculum relating theories to practice

The students will acquire a broad range of knowledge and theory, from a basic to expert level. Additionally, the program includes company visits, internships, and classes given by guest lecturers who have business management experience. Through these educational opportunities, the students will be able to relate the theories of business administration to actual practice.

## What GBP Offers

---

The Global Business Program (GBP) is a newly designed program that commenced in September 2016 and was integrated as part of the Faculty of Business Administration at HOSEI University. Its foundation is based on the objective to develop human resources for the management of globalized businesses in the 21st century, which is often called "The Asian Century".

The students in this program will enjoy active interaction with fellow students from different backgrounds and cultures, which will enhance their understanding of global business management, and encourage proactive participation in learning activities. In addition, this will become an optimum program for studying Japanese-style management as well as the Japanese spirit of craftsmanship and hospitality.

Japanese companies have been able to maintain their competitiveness in the global business environment using outstanding craftsmanship, widely known in Japanese as "Monozukuri", and top-quality services.

In addition to large-scale manufacturers of products and brands with a worldwide reputation, many other companies in the areas of retailing and services are also successfully expanding their presence globally, particularly in Asian markets. Moreover, the Japanese style and spirit of hospitality, famously known in Japanese as "Omotenashi", captures the hearts and minds of tourists from overseas.

The GBP offers the unique opportunity to obtain in-depth knowledge of Japanese-style business management, which has been fundamental to corporate success throughout the world.

## Curriculum & Course List

One essential element in the management of globalized businesses is development of English communication skills. For this reason, the GBP will be conducted entirely in English.

GBP students will acquire a broad range of knowledge and theory, from a basic to expert level, which are indispensable to participation in the global business environment.

Additionally, the GBP program curriculum includes company visits, internships and also classes given by guest lecturers who have business management experience.

### Subject Areas & Course List

### Comment from the Dean

Global Business Program at Hosei University is designed to provide students like you with the knowledge, skills, and experience necessary to succeed in today's global marketplace. Our curriculum is rigorous and practical, providing you with the tools you need to thrive in the fast-paced world of international business.

At Hosei University, we understand that moving to a new country and adapting to a different culture and language can be challenging. We are committed to providing you with a supportive and inclusive learning environment that fosters academic and personal growth.

We offer a wide range of support services, including language tutoring, cultural activities, and academic advising, to ensure that you have everything you need to succeed in our program. Our experienced faculty members are dedicated to helping you achieve your academic goals, and we are here to support you every step of the way.

We believe that diversity is a strength, and we value the unique perspectives and experiences that each of our international students brings to the classroom. We encourage you to take advantage of the many opportunities available to you at Hosei University and to get involved in the vibrant student life on campus.

We look forward to welcoming you to our community.

**Tomohiko TSUTSUI**

Dean and Professor,  
 Faculty of Business Administration  
 Accounting / Financial  
 Accounting Theory

# SCOPE

Sustainability Co-creation Programme

## Areas of Study

Sustainability, Environmental Policy Energy and Resources, Social Development

## Find out more

Web ▶ <https://scope.hosei.ac.jp/>

## Program Highlights

---

1.

### Interdisciplinary Curriculum

We offer well-balanced, wide-ranging core courses from the humanities, social sciences, to natural sciences to allow students to comprehend and create solutions for the social and environmental challenges that we face.

2.

### Field-based and Active Learning Opportunities

In our program, students apply what they learned in the classroom in terms of the knowledge, skills, and values of these disciplines to our communities and society through hands-on experiences off-campus. These learning opportunities provide students real life exposure to sustainability challenges.

3.

### Co-creation Experience

One of the key concepts of SCOPE is co-creation, which goes beyond cooperation. Students have co-creation experiences through SCOPE core curriculum and the field-based and active learning with fellow SCOPE students, other HOSEI University students, the university faculty members, as well as those who they meet through Field Workshops.

## What SCOPE Offers

---

### The Objective of SCOPE

There is no absolute answer to the questions of what it means to have a sustainable society and how we can achieve it. However, we believe that in order for us to contribute to the creation of a sustainable society, we need to understand the dynamics and perspectives both at the global and local levels. Thus, the objective of SCOPE is to train students so that they can become glocal (global plus local) citizens, who can lead to the creation of a sustainable society with global and local perspectives.

Today, we face increasing challenges to maintain peaceful and prosperous societies, due to numerous factors including global environmental problems, an ever-growing world population, the globalization of economic activities and consumer behavior, as well as continuous political and religious conflicts in some regions.

Now is the time that we take actions to make a new model to establish a sustainable society. In order to join forces to achieve this goal, it is imperative that students first grasp the structural mechanisms as to how various issues are related to one another, and then develop solution-oriented thinking skills. SCOPE utilizes experiential learning, research, and service activities that are essential for students to implement practical solutions for a sustainable future.

### What We Offer

Through our curriculum, students gain:

- 1) ability to determine the core of complex issues and to comprehend the actual situations;
- 2) capability to critically analyze social and environmental issues and to seek possible solutions; and
- 3) communication skills to bring together collective efforts of various actors in society through conducting projects and strive for the solution.

## Curriculum & Course List

SCOPE utilizes experiential learning, research, and service activities to prepare students to be able to implement practical solutions for sustainable future.

Fields	Subjects

## Field Workshop

The Field Workshop offers hands-on experiences outside the classroom to further learn about sustainability. The goals of the Field Workshop are to learn from experts who are devoted to issues relating to sustainability, and to make connections between what we study in the classroom and observations from the fieldtrips. Field Workshops will be held during the periods of summer and spring recesses. The themes covered in the Field Workshops may include biodiversity and nature conservation, urban planning, agriculture, social diversity and community welfare, international cooperation and energy conservation.

### Comment from the Programme Director

What kind of world would you want to live in, and what do you think your role is in realizing this idea? What kind of knowledge and skills do you think you will need?

SCOPE offers a rigorous and supportive environment for students to engage with a number of pressing issues we face in the twenty-first century, including, but not limited to, issues surrounding environmental concerns, along with economic and social inequality.

We look forward to welcoming students who seek new and original ways of understanding and addressing these challenges to contribute to creating a more sustainable society.

**Eiko SAEKI**

Program Director and  
Associate Professor Sociology

# IGESS

Institute for Global Economics  
and Social Sciences

## Areas of Study

Economics, Japan and the Global Economy,  
Area Studies, Business Communication

## Find out more

Web ▶ <http://igess.ws.hosei.ac.jp/>

## Program Highlights

---

1.

### Studying in small classes on 2 campuses.

The Faculty of Economics is large, but you will study in a small group of students in IGESS classes. In addition, you will spend time at both the Ichigaya and Tama campuses.

2.

### Studying Economics

IGESS offers bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. You will study primarily global economics and write an honors thesis.

3.

### Enrichment of Liberal Arts and Japanese Language Education

In the IGESS curriculum, you will be able to study liberal arts widely as part of your general education courses. You will have many opportunities to learn Japanese not only during the first three semesters but also throughout the following five semesters.

## What IGESS Offers

---

The Faculty of Economics at HOSEI University, founded in 1920, has more than 3,000 students, and is accordingly one of the largest and oldest faculties among private universities in Japan. Established in 2018, the IGESS (Institute for Global Economics and Social Sciences) offers English-based degree programs in small classes. The annual student quota is 30 students.

When you join the IGESS, you can:

1. Spend the first three semesters at the Ichigaya Campus in central Tokyo attending the First Year Seminar, Japanese, Academic Skills and Liberal Arts classes, and the following five semesters on the beautiful, spacious Tama Campus in suburban Tokyo where you can take subjects offered by the Faculty of Economics as well as other faculties (including Social Sciences, Social Policy and Administration, and Sports and Health Studies);
2. Study Economics from the first semester, and from the fourth semester attend specialized courses in Economic Theory and Applications, Applied Global Economics and Global Business, and Business English and Communication;
3. Take basic Japanese lessons at the Ichigaya Campus and many advanced lectures at the Tama Campus to improve your Japanese skills; and
4. Study with Japanese students in both English and Japanese-spoken courses including seminars.

## Curriculum & Course List

Students require extensive knowledge of Economics and a variety of other disciplines to understand today's global economy. Accordingly, the IGESS curriculum encompasses the following course and program elements:

- Extensive basic education and liberal arts courses up to the third semester
- From the fourth semester, well-balanced courses in Economic Theory and Applications, Applied Global Economics and Global Business, and Business English and Communication
- Honors thesis preparation with supervision from seminar instructors

	1st Fall	2nd Spring	3rd Fall	4th Spring	5th Fall	6th Spring	7th Fall	8th Spring
	Ichigaya Campus			Tama Campus				
<b>General Education Courses</b>	First Year Seminar			Japanese Communication, Japanese Seminar, Japanese Culture, Japanese Society, English Drama, Communication in a Globalized World, Basic Science for Global Environment				
	Academic Skills (Academic Literacy, College Writing)							
<b>Advanced Courses</b>	Japanese (Level separation)							
	Liberal Arts (Humanities, Social Sciences, Natural Sciences and Mathematics, Culture and Communication, Information Technology, Career Development, Health and Physical Education)

<b>Social Policy &amp; Administration</b>	Practice of Environmental Economics and Japan			Disability and Development in Asia, Community Based Inclusive Development				
<b>Sports &amp; Health Studies</b>	Health and Exercise Science			Sport Consumer Behavior, Kendo, Strength Training				
<b>Elective Courses</b>	Exchange Students from Overseas Program / English Reinforcement Program / Faculty of Business Administration (Global Open Courses) / Faculty of Sustainability Studies / Faculty of Economics (taught in Japanese) / International Internship & International Volunteer							

The curriculum is subject to change.

### Comment from the Dean

The Institute for Global Economics and Social Sciences (IGESS) will offer English-based degree programs based on collaboration among four faculties (Economics, Social Sciences, Social Policy and Administration, and Sports and Health Studies) at HOSEI University's Tama Campus. IGESS will offer bachelor's degrees in Economics (B.A. in Economics) to support the development of globally-minded experts toward the formation of a sustainable society. IGESS's educational curriculum is designed for students who are eager to study Global Economics (especially Global Economy, Global Business and Business Communications) in English. In addition, IGESS students study at both the urban campus (Ichigaya) and the suburban campus (Tama). You will be able to enjoy an enriched student life in Tokyo. We welcome all of you who are interested in expanding your knowledge and enriching your careers.

**Keisuke TAKEGUCHI**  
Dean of the Faculty of Economics /  
Financial Accounting

# Other Programs

## Study Abroad Opportunities

### Outgoing Student Exchange Program

Selected third and fourth-year students are awarded the Outgoing Student Exchange Program for study for one or two semester (s) at overseas partner institutions. HOSEI has sent nearly 100 students to exchange partners in various countries and regions around the world under mutual agreements every year. The scholarship of 1,000,000 yen or 700,000 yen will be paid to all exchange students (If the student's study period is one semester, the scholarship shall be half this amount.). The tuition fee of the partner institution will be exempted based on the student exchange agreement. The credits acquired at the partner institutions are recognized as credits required for graduation at HOSEI.

# Costs and Financial Support

## Scholarships for International Students

### Tuition Reduction Scholarships

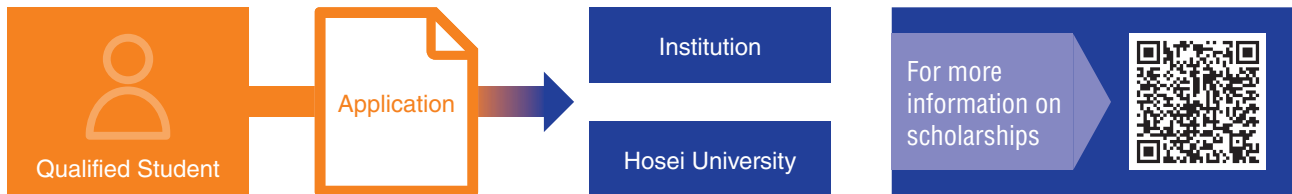

Eligible undergraduate students may receive a tuition reduction depending on their grades as follows:

1st year students	30% tuition reduction (All the international students)
2nd, 3rd and 4th year students with excellent academic performance	40% or 50% tuition reduction (Some conditions may apply)

50% : In the top 10%  
40% : In the top 11%~30%

### Scholarships for Undergraduate Students

HOSEI University provides various external foundation scholarship

\*All scholarships can be applied for after admission.

# Career Paths and Support

HOSEI international students can increase their employability utilizing a wide range of free support offered by the Career Center. This support facilitates our students' success in students' recruiting activities. Many HOSEI international students have entered major Japanese companies.

## Career Support

---

### Guidance

A wide range of guidance provides basic information needed when students look for jobs in Japan. It helps students to understand Japan-specific recruitment activities and how to research Japanese companies and industries. The Career Center also sends e-mails weekly to share information on recruitment and employment fairs with international students.

### Regular counselors

Job hunting consultations are given on a private, one-to-one basis.

### Workshops

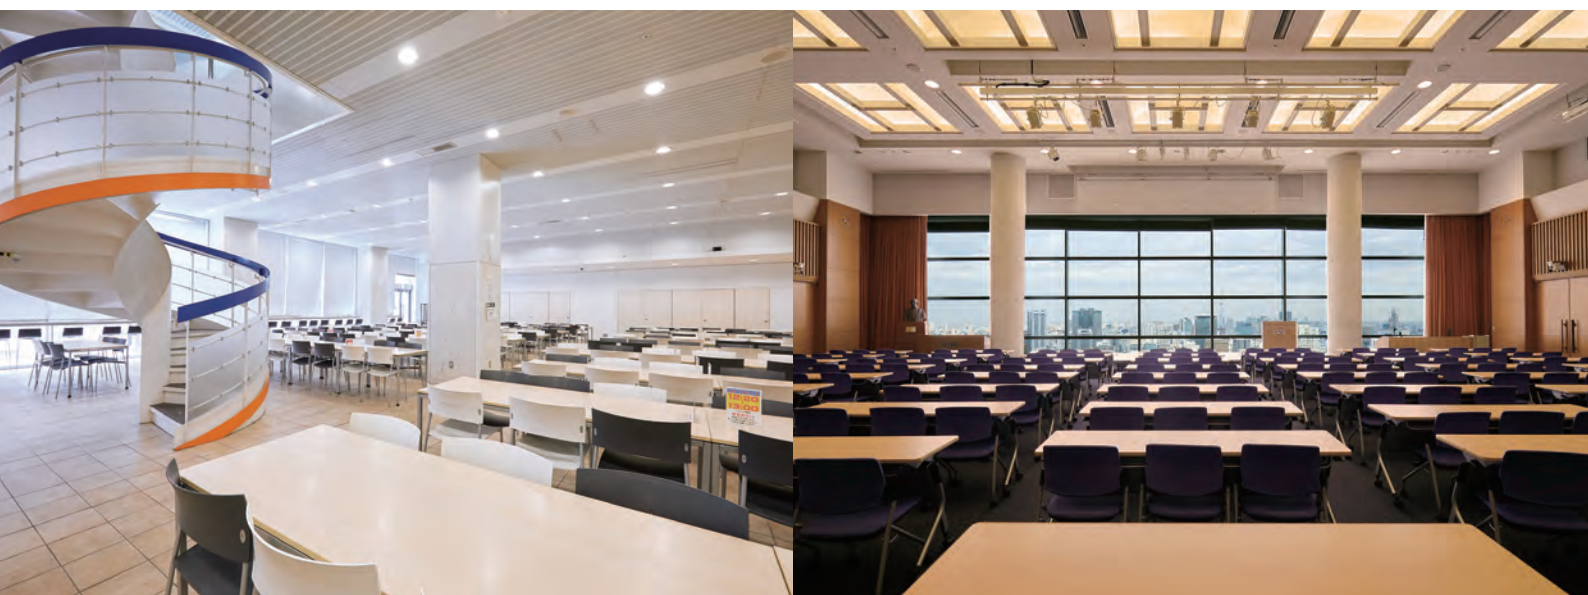

A wide variety of workshops provide important advice to help with document screening and job interviews and group discussions. There also give students opportunities to understand Japanese business customs and define their career goals through self-analysis.

### Talk session with seniors who have job offers

Senior HOSEI international students with job offers share their real experiences of job hunting activities in Japan, which is valuable information for success.

### Opportunities to learn business Japanese

International students have an opportunity to improve their business Japanese proficiency, which Japanese companies prioritize in their recruitment activities, through the above support.

# Student Support

To help international students settle into Japan and maximize their campus experience, HOSEI University offers a variety of extra-curricular activities, events, support, and facilities.

## Accommodation

HOSEI University offers off-campus dormitories near each campus. They provide breakfast and dinner from Monday to Saturday, a private room, internet access and showers, and can be used at any time. Students can address their questions or concerns to a dormitory manager. They can also enjoy parties and other events in the dormitories.

Since international students looking for rental accommodation in Japan may face various challenges, such as the language barrier or finding a guarantor for rental contracts, together with a partner company, HOSEI provides a full range of living support services for international students seeking rental accommodation.
